**Thinks** 

Bussiness expenses are incurred as part of a company's operations.

Bussiness subtract their expensess from their revenue to determine their net profit or loss and toxoble income.

An expense must be considered as ordinary and nbecessary by the IRS to be tax deductible.

For a bussiness to run smoothly, it is important to understand the concept of cost estimation.

Cost estimation is a method that helps approximate the cost of manufacturing or producing a good, considering the costs of capital, labour, transportation charges, marketing and sales costs, and the substantial profit margin.

Cost estimation refers to an asswrtion or statement that provides the value of the cost sustained in the manufacturing or producing a finished good.

## **ESTIMATION** OF BUSSINESS **EXPENSES**

Forming an official, legal bussiness means estimation the one time expense of obtaining your bussiness license.

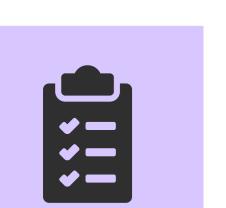

If you want to incorporate your bussiness, allow for the expenses of hiring an attorney to doi it for you or the cost of filling if you handle the details yourself.

The type of equipment you need depends on the type of bussiness you open.

Cost estimation is a process whwre project managers predict the amount of money they need to found their projects.

These costs may include utilties, equipment, vendors, and employee compensation.

The process entails direct and indirect costs of the project.
